15. Multidisciplinary / interdisciplinary

The Social work education curriculum is multidisciplinary in nature. The curriculum includes social science subjects as well as core social work discipline subjects. The Social Science subjects include Sociology, Psychology, Political sciences, Economics, Social Movement and other similar ones. One can say that the social science subjects builds a foundation necessary for learning the social work method subjects.

16.Academic bank of credits (ABC):

The process of registration of college and the students for academic bank of credits is underway.

17.Skill development:

The Social work education curriculum has field work as an important component for learning skills. The entire curriculum is designed to imparting learning of social work methods basing it on theoretical framework. Every semester 6 credits is allotted to field work component. Students are expected to put in 180 hours of field work per semester under the guidance of the teaching faculty and the field work agency representatives. The college provides the field work training in collaboration with more than 150 organisations. Along with field work skills are also imparted in various other courses in the form of workshops and seminars.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

Understanding Indian culture, history , heritage , social movements is seen as important component of the curriculum The subjects like Social exclusion and inclusion, Social movements help in integrating Indian Knowledge system in training of the students. Through field work and method subjects students learn the local culture, community structures and cultural diversity. The students also have option of writing their answer papers in either Marathi or Hindi other than English language.

19. Focus on Outcome based education (OBE): Focus on Outcome based education (OBE):

College adopted revised syllabus from the year 2019 the year college received autonomy. The new syllabus framework was completely focused on outcome based education. The outcome based education /learning goals were spelt out for every subject and the learning framework was designed keeping the outcome based education goals. This helped in making the learning centred on the needs of the learner and envisaging the outcome for the learner in gaining information or skills or experiencing change in the perspectives.

20.Distance education/online education:

We do not offer distance education but College does conduct various short term courses in the online mode.

CURRICULAR ASPECTS

1.1 - Curriculum Design and Development

1.1.1 - Curricula developed and implemented have relevance to the local, national, regional and global developmental needs which are reflected in Programme Outcomes (POs), Programme Specific Outcomes (PSOs) and Course Outcomes (COs) of the various Programmes offered by the Institution.

The BSW program aims at building committed grassroots level development workers equipped to respond to changing global and local socio-economic realities. It provides learners viewpoints and skills to understand the root causes of social problems and appreciate their role in a globally changing environment. The program outcomes include critical understandings of social realities and inculcating professional ethics. The program

specific outcomes include professional use of self and understanding forms of discrimination. The course outcomes includes applying bio-psycho-social frameworks.

The MSW program aims at developing professional social workers through distinct methods of instruction and diverse practical knowledge. The program outcomes include orienting students to diversity and inculcating professional skills. The program specific outcomes include policy analysis and research skills. The course outcomes include acquiring skills to advance social and economic justice.

The MA-SIE program aims at providing a conducive space to equip students with the skills related to sustainable social entrepreneurship. This is reflected in its program outcomes of teaching ways to innovate products and program specific outcomes such as marketing them. The course outcomes include incubation and finalizing entrepreneurial ideas.

1.3 - Curriculum Enrichment

1.3.1 - Institution integrates cross-cutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability, and Human Values into the curriculum

The course Introduction to Social Work will orient the learners

Page 11/64 19-07-2024 10:37:27

towards the profession of social work, its principles, values and ethics.

Environmental Studies covers problems such as pollution, global warming, ozone layer depletion, acid rain, deforestation, and desertification and helps make them a major focus of scientists, policy makers and the public.

Women and Gender Studies is knowledge grown out of a felt concern for gender equality, often considered the "academic arm" of the women's movement.

History and Philosophy of social work gives learners an understanding about human beings and the changing socio-economic and political trends and emerging social issues.

Sustainable Development and Environment explains how development is not to be equated with growth but needs as development towards a quality of life for everyone, taking ecological conditions into account.

Human rights underlines how social work profession promotes social justice and social change.

Peace education aims to draw out, enrich, deepen, and place in context learners' thinking about the concept of peace and the competencies, perspectives, attitudes, values, and behavioral patterns required to build and maintain peace in the 21st century.

Education and development explains how education plays an important role in human development and overall social transformation.

2.2 - Catering to Student Diversity

2.2.1 - The institution assesses students' learning levels and organises special programmes for both slow and advanced learners.

The college routinely assesses students' academic progress through group projects like presentations, participation in class, internal exams, assignments, and assessments. It organises computer application lectures, supportive study classes, and remedial English lessons in which the course instructor goes over all the fundamentals with the students once more while accounting for their pace of learning. In order to provide students with a better learning environment, the Equal Opportunity Cell schedules relevant workshops on a variety of student-related topics. During orientation week, subject-based skill lab sessions on topics like Gestalt, REBT, and Transactional Analysis were organised for MSW SEM III. Visits through the internet were planned. To better understand the pupils, parents are invited to meetings. The college uses an inclusive teaching approach, providing reading materials and compendiums to visually impaired students.

The college encourages students to take part in AVISHKAR research competition by Mumbai University every year. Twelve students took part in the 16th Inter-collegiate/Institute/Department AVISHKAR Research Convention in 2020-2021, and they placed first and second. The AVISHKAR students are extensively guided by the teachers so they can learn the research process in greater detail.

2.3 - Teaching- Learning Process

Page 15/64 19-07-2024 10:37:27

2.3.1 - Student-centric methods such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences:

Both an online and an offline mode were used in 2021-2022.

Techniques for experiential learning included watching educational movies, reviewing them, and attending theoretical and skill-based seminars. The teachers choose appropriate outside speakers to help students learn about important subjects like law, policy, human rights, and rural and urban studies.

Participatory learning strategies, which combine article reviews, student presentations and group activities with classroom instruction, promote the learning of students from a variety of academic and social backgrounds on both online and offline platforms.

Through orientation visits and fieldwork, students are given the chance to learn about issues, their variations, and intervention strategies in a range of contexts. The fieldwork was conducted in two different ways: online (from June 2021 to September 2021) and offline (from October 2021-2). (Jan 2022 onwards).

To assist the theory-practice linkage in the field the students are assigned individualfield work mentors. Such dialogues aids in closing the knowledge gap. The college also has a counsellor to guide the students who are undergoing various challenges. The students are given a recap of the class, question banks, a compendium, and reading materials.

2.3.2 - Teachers use ICT-enabled tools including online resources for effective teaching and learning

In 2021-2022, both online and offline modes were employed. ICT has been integrated into the teaching-learning process at the college, especially when it comes to pandemic-related online lectures. The lecturers used PPT, film clips, audio clips, posters, slogans,

Page 16/64 19-07-2024 10:37:27

soft copies of reading material, class notes, and library access to make the lectures interactive in an online format so that students could learn in the comfort of their own homes. For BSW III, MSW I, and MSW II research students, the college held workshops in Excel, APA style, and access to online libraries. The college updated its SPSS programme and bought the most recent version. Through these workshops and ICTs, learning has become more approachable, appealing, and easier to understand.

2.3.4 - Preparation and adherence to Academic Calendar and Teaching Plans by the institution

Academic Calendar: The college operated in an online and hybrid mode to acclimatise to COVID protocols and address health risks. Principal, faculty, and administration plan academic schedule in April to prepare for the academic year.

Academic events such as admissions, induction, class and fieldwork start dates, submission and viva dates for research and term papers, and examination dates including ATKT are all included in the calendar. Seminars, workshops, conferences, lecture series, celebrations of Women's Day, College Day, Sports Day, etc. are some examples of extracurricular activities. It also includes vacation notification functions.

Page 17/64 19-07-2024 10:37:27

Teaching Plan: Through the administrative committee, the classes are organised and the professors are allocated. For each subject worth four credits, 60 hours of lectures are required, and for each subject worth two credits, 30 hours. The lesson plan also calls for workshops and seminars. To guarantee that the course is finished and that the students have had a chance to review, there is a provision for additional lectures. For those students who require further support, such as those who struggle with English, computer applications, or ATKT, remedial courses are available.

- 2.5.3 IT integration and reforms in the examination procedures and processes including Continuous Internal Assessment (CIA) have brought in considerable improvement in the Examination Management System (EMS) of the Institution
 - Examination procedures: The principal (examination conductor), the controller of examination, the deputy examiner, and members of the examination committee conduct the test. The college has a policy regarding exams and internal evaluations. Due to the COVID-19 Pandemic, the exam was given in an online format during the first semester and

Page 19/64 19-07-2024 10:37:27

- in an offline format during the second semester. To conduct the exam in an online mode, a special SOP was created.
- Processes/Procedures integrating IT: A separate technical committee was established by the college to oversee the technological components and examination procedures in order to support the online exams. The process and protocol for the online exam were thoroughly explained to the students as well as the supervisor and teachers. Hall passes and exam results are generated via the college's MIS system.
- Continuous Internal Assessment System: This includes the assignments, class test, participation, and attendance. The college uses a 60-40 scheme for evaluation. 60 for the external and 40 for the internal.

2.6 - Student Performance and Learning Outcomes

2.6.1 - Programme Outcomes and Course Outcomes for all Programmes offered by the institution are stated and displayed on the website and communicated to teachers and students

The college updated the course syllabus in 2019 based on the UGC framework after achieving academic autonomy. The syllabus's subject matter is chosen based on the situation and demand of the moment. The course objectives, outcomes, learner's objectives, unit plan with description and content, and current references are all listed at the beginning of the syllabus. Lesson plans are created by teachers with the learning objective in mind.

The students receive a thorough explanation of the subject, curriculum, and course overview during the induction session. The subject teacher, in particular for elective subjects, exposes the subject to the class to help the students choose their courses. Additionally, when pupils enter the classroom, the teacher also communicates the information with them. The curriculum is sent to the students in electronic form, and it is also posted online for their convenience.

2.6.2 - Attainment of Programme Outcomes and Course Outcomes as evaluated by the institution

The college assesses the students internally and externally to determine the programme outcomes and course outcomes. Assignments and class tests are included in the internal evaluations. The tests are specifically created to evaluate a student's recall, comprehension, application, and analytical skills. The external evaluation takes the form of a written test that is given at the conclusion of each semester. The exams in this academic year were administered in two different ways: online during the first half of the year and offline during the second. Microsoft Teams served as the online exam platform.

The college places its students in field studies where they are assigned to various organisations tackling various problems. Students are evaluated at the conclusion of each semester. The assessments take the shape of a field work viva, an agency evaluation, and an individual evaluation. At each stage of the work's development, the research projects of the MSW II students who are involved in research and term papers are assessed by their mentors. Additionally, the students are required to present their project during the viva, when they are assessed by outside experts.

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The governance of the institution is reflective of an effective leadership in tune with the vision and mission of the Institution

An important hallmark of college's functioning is democratic and participatory mode of governance which permeates through all the

decision making processes in the college. College and its various constituencies brainstorm towards developing a Perspective/Strategic Plan which is periodically reviewed and revised. This perspective plan provides a broader framework for the college to develop in a systematic, and phased manner. The Internal Quality Assurance Cell of the college undertakes systematic efforts towards ensuring the quality of academic programs. At the end of each academic year, review and planning meetings are held which also ensures that all the programs of college including academic programs, and field engagements are in tandem with the vision and mission of the college.

college has always been having a democratic and partipatory leadership whereby decentralised functioning is always encouraged. While practising ethos of participatory management, specific administrative and academic committees are constituted having members from all the units of college including teaching and non-teaching staff members, representatives from students' body are also part of these committees. This eco-system in the college not just ensure the functioning of college in a decentralised manner but also goes a long way in ensuring that all the action plans are aligned with the vision and mission of the college.

6.1.2 - Effective leadership is reflected in various institutional practices such as decentralization and participative management

College has always believed in and practiced the decentralised and participative management of functioning in all its processes involving various stakeholders such as faculty members, administrative staff and students. College believes in bottom up approach of organisational management and promotes decentralisation at various levels which has proved to be one of the best practices of the college both in terms of taking decisions and implementation them.

Participative management approach is practiced at different levels and various stakeholders are involved in the process of decision making. The academic and administrative structure of the college is in a manner which facilitates the participative arrangement.

Page 44/64 19-07-2024 10:37:27

Principal is the administrative and academic Head, who functions along with faculty, administrative staff and students of the college. At the college level, frequent meetings are conducted with faculty members and administrative staff of the college, for effective implementation of policies and plans.

The college Management through the constitution of two significant bodies, that is, IQAC and CDC has ensured that practices of participative management are followed in college functioning with the participation of all stakeholders. Various statutory and non-statutory committees have been formed to facilitate the process of decentralisation and participative management at the college level.

6.2 - Strategy Development and Deployment

6.2.1 - The institutional Strategic/ Perspective plan has been clearly articulated and implemented

It is in line with the vision and mission and also within the framework of Perspective Plan, College of Social Work, Nirmala Niketan continued to strive towards providing quality education even in the second phase of Covid-19 Pandemic. The College also continued to respond to the emerging needs of various vulnerable groups in the said year and also organised various sensitisation and awareness sessions in the same line. As per strategic plan of the college, a theme of child rights and child protection was taken up by college for systematic intervention and it is in the same line, a State Level Conference on was organsied in month of October 2021 on the theme of Child Protection- Concerns and Response in the Covid-19 Pandemic. There was an overwhelming response for the conference across the state ensuring the participation from both government and civil society stakeholders in the conference. As a follow-up to the conference, a series of three online training programs were organised for the Child Protection Workforce at national level.

Page 45/64 19-07-2024 10:37:27

A systematice level of interventions were also carried out by College field action projects- SPANDAN, PRAVAS and Anubhav Youth Development Centre while reaching to various vulnerable sections of society.
