ABOUT THE COLLEGE OF SOCIAL WORK

The College has shaped its vision in tune with the spirit of its founders to contribute to building up of a new social order in India based on human dignity and social justice. The College constantly stands by its commitment to work with a preferential option to the vulnerable and exploited groups in the society, to ensure their development and empowerment.

As an academic institution, the College strives to build a cadre of professional social workers, irrespective of caste, creed, language and sex.

Vision and Mission

Contribute to building a new social order based on human dignity and social justice.

Work with a preferential option for the vulnerable and exploited, both locally and globally.

Build a cadre of young, competent professionals having a global perspective and a strong value base of compassion, personal integrity, moderation, tolerance and self-respect.

HISTORY

The College of Social Work was founded in 1955 by a religious society of Catholic Christian women, known as *The Daughters of the Heart of Mary*, whose charism is to readily respond to felt needs of the people according to the signs of times.

In the years following the independence of India, the founders discerned that the nation's struggle for development would be served not so much by material relief as by sensitive social concern and insightful committed action. Accordingly, the College was born to realize their dream. The Institute of Social Service Trust managed the College till the year 1978. Since 1978, the Nirmala Niketan Institute has become the parent body of the College.

The Institute awarded its own Diploma in Social Work, till 1965. The University of Bombay affiliated the course as PG Diploma since 1965 and then got it converted to the M.S.W. course in 1969 under the Faculty of Arts. Realizing the need to respond to professional interventions at different levels, the College also started its university recognized three year B.S.W. course in 1971. The courses are revised periodically in order to ensure that the educational content of the courses are relevant to the social reality of contemporary life.

The Government of Maharashtra recognized the College as a Catholic Christian Minority Institution in the year 1995.

The University recognized the College for registration of students for Ph.D. degree in Social Work from the year 1997.

The National Assessment and Accreditation Council (NAAC) constituted by the University Grants Commission, New Delhi, awarded the College the FIVE STAR status for its academic excellence in 2001. The same body, after further inspection and appraisal re-accredited the College of Social Work at the A+ level with an Institutional Score of 93 per cent in March 2007, and in May 2015, college was awarded with A grade, corresponding to a CGPA of 3.53 on a scale of 4.

PROFESSIONAL COMMITMENT

Over the years, the College has been evolving its specific commitments, which relate to all aspects of its functions – teaching, field instruction, research, administration, and field service projects. It encourages its teaching and non-teaching staff to get involved and contribute to the community through these services. The primary emphasis of the curricular and co-curricular programmes is on the most disadvantaged of the urban and rural population. The focus of the programmes provides structural perspectives of issues affecting the slum, rural and tribal communities and also searches for various approaches of problem solving processes. There is also a commitment to the problems of health, education and employment of disadvantaged groups and the need for improved delivery and adoption of a humane approach of social and development services for disadvantaged groups.

ACADEMIC PROGRAMMES

The College provides a generic course of studies both at the M.S.W. and the B.S.W levels. A semester system of three years has been adopted for the B.S.W. course since 2009, and the Credit Based Semester Grading System, initiated by the University of Mumbai started for BSW from 2011-2012 and for MSW from 2012-2013. The curriculum is carefully designed to ensure that the student has a broad base of the necessary knowledge, skills and attitudes to function in a variety of settings related to the existing employment opportunity in the development sector. Despite being generic, the course also encourages the students to deepen their interest in certain specific areas through the type of fieldwork selected, research study undertaken, term paper topic chosen and optional subjects selected as electives.

All full-time faculty members have a Master's Degree in Social Work (MSW) and are UGC-NET qualified, and several also have an M. Phil or a Ph.D. degree. Several visiting lecturers teach full courses (papers) as they contribute to the inter-disciplinary base of the curriculum. These visiting lecturers are drawn from the Social and Behavioural Sciences and from other professions such as law and medicine/mental health.

Eminent University recognized guides are available for the Ph.D. programme in Social Work. Apart from the full time courses, the College also offers several short term courses affiliated to the University of Mumbai.

MASTER'S & BACHELOR'S LEVEL PROGRAMMES

The curriculum consists of relevant aspects of both theory and field work to help students enhance their practical understanding of social work practice.

Theory

Theoretical perspectives provided in the programmes hope to achieve the following objectives:

- ▲ acquire knowledge of the functioning of individuals and groups in social systems, the interrelationships between them and the manner in which they promote or impede a healthy social functioning,

- ▲ obtain knowledge from other disciplines which contribute to the understanding of persons in the bio-psycho-social matrix,
- ▲ develop professional capacity for identification of issues and problems violating the human rights of groups and communities and design effective responses for affecting a meaningful change in their situation,
- ▲ attain the capacity to select and order priorities, to plan, to make realistic goals, and select appropriate strategies to fulfil the goals,
- ▲ develop skills in the utilization of social work intervention methods and adopt ethical practices using the principles of the profession while working with individuals and families, groups and communities.

Field Work

Field Work is an integral part of the programme of training in social work. It comprises learning professional social work practice under the guidance of trained field instructors in selected Government and Non- Government organizations. It enables the student to see the applicability of theoretical knowledge taught in the classroom to actual situations requiring social work intervention. It is both goal-oriented to solve a particular problem to which the student addresses her/his activities and learner-centred in relation to her/his particular interest areas and aptitudes. Field work has the dual purpose of promoting the student's own learning while contributing to the development of the people with whom she / he works, especially, the disadvantaged sections of our society.

Practical experience in fieldwork aims at the following objectives:

- ▲ provide opportunity for the integration of classroom learning and field practice and vice versa (feedback mechanism for both class and field),
- ▲ develop skills through learning how to utilize the knowledge learnt in the classroom for analysis of problems affecting the target

groups and selection of the appropriate means for problem-solving,

- ▲ cultivate attitudes, values and commitments of the profession relevant to working with the most disadvantaged sections of society,
- ▲ develop awareness of self and the way in which student's behaviour is affected by past experiences and cultural factors, and the way in which these affect the perceptions of their response to others.

Students will be required to maintain regular recordings of the fieldwork done during the course of their study.

All students are required to dress soberly and appropriately, giving due respect to the socio-cultural practices of the people whom they work with while at fieldwork. A similar sobriety in dress code is also expected from students within the College premises and hostels.

Faculty Advising and Mentoring

Each student is assigned to a Faculty Adviser. Ordinarily a new Faculty Adviser is appointed each year. The appointment of the Faculty Adviser is based on the particular fieldwork placement of the student since each faculty member is responsible for a group of placements whether or not they directly provide field instruction in those placements. Besides being responsible for the students' field work performance, the Faculty Adviser is also responsible for the students' overall academic work and professional development. Any difficulties experienced by the student may be discussed with the Adviser whose function is to assist and guide the student. The students receive individualized attention in the form of guidance and supervision from the teaching faculty. As per the Regulation of the Directorate of Social Welfare, Government of Maharashtra, the staff student ratio of the College is to be maintained at 1:14.

Age & Sex

There is no minimum age for admission provided the student meets all other eligibility and admission criteria required by the University and the College.

Admission is open to both men and women students for all programmes.

Medium of Instruction

English is the medium of instruction for all courses. **Hence, the ability to use English as a language is essential.** Fluency in either Hindi or Marathi is required for working with the client system.

Teaching

Theory classes are held on Mondays, Tuesdays, Wednesdays, and Thursdays (half-day). Fieldwork days are on Thursday afternoon, Friday and Saturday. Most of the classes are conducted with a combination of lecture, presentation and discussion method where participation from students is strongly encouraged. The students are given an outline of the content of each course as well as bibliography of the required reading at the beginning of each year. Students are expected to supplement classroom learning by independent reading. Required readings are prescribed from several sources which are available in the library.

Examination and Marking System

According to choice based credit system from 2016-17 for MSW and Credit based Semester Grading system for BSW (with effect from academic year 2011-12) there is an internal assessment and semester end examination for each course in each semester.
